# Introduction to Engineering Design

The following learning targets represent the major concepts studied and assessed in this course.

#### Semester 1

### Unit 1: Design & Problem Solving:

- Engineering Notebooks
- Design Process
- Evaluate Solutions

#### **Unit 2: Assembly Design:**

- Sketching
- Measuring
- Unit Conversions

#### Semester 2

#### **Unit 3: Thoughtful Product Design:**

- Product Life Cycle
- Sustainable Design
- Design Ethics

## **Unit 4: Making Things Move:**

- Cams
- Friction: Design
- Circuit Basics
